The Anand Charity - Making sports accessible to all

I (Ahaan Saini) have set up a charity to help children in India get access to sports and equipment. Our first project is to provide financial aid to national swimmers in the small city of Belgaum, enabling them to buy approved tech suits for competitions. By raising just £35 we can provide an approved racing tech suit for a swimmer, enabling them to continue in the sport and compete to their full potential.

Please support us by collecting funds through this 1 hour sponsored swim. You may want to agree on a target distance with your coach or simply complete the hour swim!

Friday 29th November - Hatfield Swim Centre & Hertfordshire Sports Village
